Office Action Summary						

Application/Control Number: 10/619,849

Art Unit: 1761

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 24, 25 and 28-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Faust et al (4,822,597) in view of Yatka et al (4,997,659).

Faust et al (columns 1, 2 and 4) discloses a chewing gum including a pre-mixture of hexylresorcinols, in the amount claimed by applicant, and the sweeteners claimed by applicant. It would have been obvious to include said pre-mixture as part of a rolling compound or coating applied to chewing gum since it is old to include an active agent or sweetener, viz. alitame, as part of a rolling compound applied to chewing gum or as a coating for a gum pellet, as evidenced by Yatka (column 6).

- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Song et al (claim 67) shows the use of alitame as an active agent in chewing gum.
- 4. The disclosure is objected to because of the following informalities: the specification (page 1) fails to include the updated status of the parent applications.

Appropriate correction is required.

5. Any inquiry concerning this communication from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can generally be reached on Monday--Friday from 10:30 to 8:00 p.m..

Art Unit: 1761

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on (571) 272-1398. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
